Wethaq Takaful Insurance Company Kuwaiti Shareholding Company (Public) and its Subsidiaries State of Kuwait

Independent Auditor's Report to the Board of Directors

Report on Review of Interim Condensed Consolidated Financial Information

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Wethaq Takaful Insurance Company (Kuwaiti Shareholding Public Company) (the "Parent Company") and its subsidiaries (collectively the "Group") as at 30 June 2020 and the interim condensed consolidated statements of profit or loss, other comprehensive income, changes in equity and cash flows for the six months period then ended. The Parent Company's management is responsible for the preparation and presentation of this Interim Condensed Consolidated Financial Information in accordance with International Accounting Standard (34) "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

Except as stated in the next section, we conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity".

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

• The interim condensed consolidated financial information for the period ended 30 June 2020 includes the amount due from the policyholders of KD 6,310,473 (KD 6,292,981 – 31 December 2019) and Qard Hassan to policyholders amounting to KD 1,463,111 (KD 1,463,111 – 31 December 2019) after deducting the provision made for these balances amounting to KD 434,574 and KD 162,500 respectively (KD 434,574 and KD 162,500 respectively – 31 December 2019). The management did not consider the impairment of such balances as at 31 December 2019 and 30 June 2020 as required under the International Financial Reporting Standards. Qualified opinion was expressed in the audited consolidated financial statements for the year ended 31 December 2019 regarding

this matter. We were unable to complete our review of these balances as at 30 June 2020. Had we been able to complete our review of such balances, matters might have come to our attention indicating that adjustments might be necessary to the interim condensed consolidated financial information.

- The interim condensed consolidated financial information includes the policyholders' assets, which include accounts receivable and other assets and premiums receivable of KD 684,600 (KD 797,539 31 December 2019) and KD 997,485 (KD 1,078,262 31 December 2019) respectively, representing balances brought forward from previous years. The management did not consider the impairment thereof as required under the International Financial Reporting Standards. Qualified opinion was expressed in the audited consolidated financial statements for the year ended 31 December 2019 regarding this matter. We were unable to complete our review of these balances as at 30 June 2020. Had we been able to complete our review of such balances, matters might have come to our attention indicating that adjustments might be necessary to the interim condensed consolidated financial information.
- The interim condensed consolidated financial information for the period ended 30 June 2020 includes investment property of KD 186,682 (KD 186,682 31 December 2019). The management did not conduct valuation of such property for the financial year ended 31 December 2019 and the period ended 30 June 2020. We were unable to complete our review of this investment property as at 30 June 2020. Had we been able to complete our review of the investment property, matters might have come to our attention indicating that adjustments might be necessary to the interim condensed consolidated financial information.

Qualified Conclusion

Except for the adjustments to the interim condensed consolidated financial information that we might have become aware of had it not been for the situation described above, based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard No. (34) "Interim Financial Reporting".

Other Matter

The consolidated financial statements for the financial year ended 31 December 2019 were audited by another auditor who expressed qualified opinion on those financial statements on 29 March 2020.

Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of the Parent Company. To the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016, and its Executive Regulations, as amended, or of the Parent Company's Memorandum and Articles of Association, as amended, have occurred during the six-month period ended 30 June 2020 that might have had a material effect on the business of the Group or on its consolidated financial position.

During the period, there were no transfers between levels 1, Level 2, and Level 3.

The preparation of interim condensed consolidated financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expense. Actual results may differ from these estimates.

Investment properties

The Group's management determined the fair value of investment properties using internal studies. This requires the management to assess different factors to arrive at best estimate of the property value.

(All amounts are in Kuwaiti Dinars unless otherwise stated)

18. Impact of COVID-19 Pandemic (Cont'd)

- On 25 February 2020, all flights from certain countries were suspended. Subsequently, the suspension was extended to cover all air traffic in the State of Kuwait on 12 March 2020 until the date of this report.
- On 10 March 2020, the government started imposing a moratorium on certain commercial activities, leading to the implementation of a partial curfew from 22 March 2020 to the date of this report.
- On 11 March 2020, The Council of Ministers announced the suspension of government and private entities for a period of two weeks, and then it was extended until 18 June 2020.

As a result of these precautionary measures, the business has been suspended either totally or partially, depending on the business sector and according to the requirements of controlling the pandemic.

The Group's management assessed the effect on the financial information as a result of the current conditions. Significant changes are outlined below:

- The Group considered the available information and current conditions as well as
 economic forecasts when determining the fair value of investment properties in the
 interim condensed consolidated financial information. The management believes
 that the recognized values of investment properties represent the best estimate in
 light of the current situation, reflecting impairment of investment properties by KD
 136,000 as set out in Note 9.
- The Group studied the potential effects of fluctuations in the current market to determine the amounts recognized for the Group's unquoted financial assets in light of the impact of Covid-19. This represents the best evaluation by the management based on the available observable information as at the date of interim condensed consolidated financial information. The Group closely monitors if the fair value of financial assets and liabilities represents the price that would be realized for transactions among market participants under the current scenario. Further information regarding fair value measurements is disclosed in Note 4.
